REPORT

Anti-Ragging Measures MBBS batch (2024-2025)

The Anti-Ragging Cell of Vyas Medical College & Hospital, Jodhpur held Anti-Ragging day on 12th August 2025, followed by Anti-Ragging Orientation week from 12th - 18th August 2025. During this week, the students were informed about the risks and the types of punishments of ragging in educational institutions. Vyas Medical College, Jodhpur has proactively established an Anti-Ragging Cell as per UGC guidelines to promote a safe and supportive environment for all students.

The keynote speaker at the event was Dr. K. C. Agarwal, Principal VMCH. He explained about the mental and physical distress caused by ragging. He narrated the difference between the term ragging initially, meant to be an icebreaker for juniors to open up to seniors, and how it eventually progressed into a harmful practice. He emphasised the importance of having an Anti-Ragging Cell in all educational institutions to curb the nuisance of ragging. He stressed that in any instance of ragging, the cell should be informed immediately, and the first responder should know what crime has been committed. The Anti-Ragging body should never hide any details, as it can be seen as abetting the crime and members can be taken as perpetrators.

During the talk, the speaker brought attention to the prevalence of various crimes in today's society, including alcohol and drug abuse. He referred to sections of Acts like the NDPS Act, 1985, and SADA, 2006, to emphasize the severity of the issue. Additionally, the audience, which comprised of staff and students, were informed of other crimes mentioned in the Indian Penal Code, such as kidnapping and sexual harassment. The speaker highlighted the importance of everyone knowing their duties and rights because "Ignorance of Law is never an excuse."
